Dear Prospective Home Buyer or Renter:

This list contains the addresses of 257 properties in Mahoning County in which local health department sanitarians have identified lead hazards that have not yet been made lead-safe. These inspections were done in response to a report of a lead poisoned child living in these homes.

Families with young children seeking a lead-safe home are urged to consult this listing and ask property owners for any information they have about the presence of lead hazards in their properties. Families may also contact the Childhood Lead Poisoning Prevention Program at 330-270-2855 for more information about how to prevent their children from being exposed to lead hazards.

Sincerely,

Joseph Diorio, MS, RS, Director
